INTRODUCTORY SECTION

April 21, 2025

To the Ratepayers and Board of Directors of the Kansas City Board of Public Utilities:

The Charter Ordinance of the Unified Government of Wyandotte County/Kansas City, Kansas, requires that the Kansas City Board of Public Utilities (BPU) publish an Annual Comprehensive Financial Report (ACFR) within six months of the close of each fiscal year. This report fulfills that requirement for the fiscal year ended December 31, 2024, and is presented in conformity with Generally Accepted Accounting Principles (GAAP). A certified public accounting firm has independently audited the report.

This ACFR represents management's responsibility for BPU's financial integrity, including the accuracy, completeness, and fairness of the information. To the best of our knowledge, this report provides a complete and reliable account of BPU's financial condition and results of operations. Disclosures are included to enhance understanding of the financial statements.

FORVIS MAZARS, LLP conducted the independent audit of BPU's financial statements. The objective of the audit was to provide reasonable assurance that the financial statements are free from material misstatement. This process included reviewing financial data on a test basis, assessing accounting principles, evaluating significant estimates, and overall presentation. FORVIS MAZARS, LLP issued an unmodified ("clean") opinion, stating that BPU's financial statements fairly represent its financial position, results of operations, and cash flows per GAAP. The auditor's report appears in the financial section of this report.

GAAP requires the inclusion of a Management's Discussion and Analysis (MD&A), which offers narrative context and analysis to accompany the financial statements. This Letter of Transmittal complements the MD&A and should be read in conjunction.

PROFILE

The Kansas City Board of Public Utilities (BPU) operates both electric and water utilities and is, by statute and charter ordinance, under the operational control of its Board of Directors. While the Unified Government of Wyandotte County/Kansas City, Kansas, retains the authority to incur debt on behalf of BPU, state law grants BPU exclusive control over the day-to-day operations of its utility systems.

As of year-end 2024, BPU served approximately 67,000 electric and 53,000 water customers.

Electric Utility Operations

BPU owns and operates two active electric generating stations and maintains a 17% ownership interest in a combined-cycle power generation facility. Additionally, the utility has seven long-term power purchase agreements to meet capacity and energy needs for its retail customers.

Generating Stations

- Nearman Creek Power Station consists of a coal-fired steam unit (operational since 1981) and a combustion turbine unit (CT4), which was in service in 2006 and operates on natural gas or No. 2 fuel oil.
- Quindaro Power Station includes two peaking combustion turbines (CT2 and CT3), initially commissioned in 1969 and 1977. In 2019, BPU decommissioned Units 1 and 2 due to inefficiency. Those assets were recorded as a regulatory asset valued at \$73.6 million and are being amortized through 2040.

Joint Ownership

In 2012, BPU acquired a 17% undivided interest in the Dogwood Generating Facility, a natural gas-fired combined-cycle plant. BPU's share of output is approximately 110 megawatts (MW) and includes proportional operating and capital costs responsibilities.

Transmission and Distribution

BPU's electric grid includes:

- 68.13 miles of 161 kilovolts (kV) transmission lines.
- 49.75 miles of 69 kV transmission lines.
- Over 954 miles of overhead and 237 miles of underground distribution lines.
- 26 electric distribution substations and two transmission substations.
- The utility is interconnected with Evergy, Inc.

Southwest Power Pool Participation

BPU is a member of Southwest Power Pool (SPP), a regional transmission organization based in Little Rock, Arkansas. SPP facilitates the reliable, cost-effective movement of electricity across its multi-state footprint. As the balancing authority, SPP optimizes energy dispatch and enhances system stability, particularly during emergencies.

Renewable and Purchased Power

BPU maintains seven renewable energy purchase agreements, including:

- Wind energy from Cimarron Bend, Smoky Hills, and Alexander Wind Farms.
- Hydropower from Bowersock Mills & Power Company, the only hydro project in Kansas.
- Landfill gas from Oak Grove Power Producers in Arcadia, Kansas.
- Solar energy from a 1 MW community solar project at the Nearman site (in partnership with MC Power).
- BPU also receives 38.6 MW of hydroelectric capacity from the Southwestern Power Administration (SPA) and 5 MW from the Western Area Power Administration (WAPA).

Water Utility Operations

The Kansas City Board of Public Utilities provides water service to approximately 53,000 customers across a service area covering approximately 152 square miles. This service area includes most of Kansas City, Kansas, and portions of Edwardsville, Bonner Springs, southern Leavenworth County, and northern Johnson County, Kansas.

Water Supply and Treatment

BPU utilizes the Nearman Water Treatment Plant (NWTP), a state-of-the-art facility that can pump up to 72 million gallons daily (MGD). The system includes:

- One primary water treatment facility.
- Three major pump stations.
- Two of the nation's largest horizontal collector wells.
- Approximately 1,000 miles of water pipelines.

Distribution System

The water distribution network is designed to support high-volume industrial use and residential service. It includes:

- Nearly 80 miles of primary and trunk mains (24" 48" diameter).
- Roughly 920 miles of secondary distribution mains.
- Approximately 20 million gallons of stored water capacity in elevated storage tanks and ground-level reservoirs.
- Three booster-pumping stations that regulate pressure across multiple elevation zones.

Infrastructure Investment and Maintenance

BPU continually evaluates and upgrades its water system to maintain regulatory compliance, optimize pressure zones, and ensure redundancy for critical industrial and commercial corridors. The utility employs a multi-year capital improvement plan to prioritize replacing aging infrastructure and address system growth.

ECONOMIC CONDITIONS

The Unified Government prioritizes economic development and reinvestment in key commercial and industrial zones. Major projects contributing to the region's growth include:

Legends/Village West Development

A 1,600-acre site near Interstates 70 and 435 continues to anchor regional tourism and retail. The Kansas Speedway opened with over \$280 million in STAR Bond-financed investments and remains a key destination with 82,000 grandstand seats and luxury suites. Surrounding attractions include:

- Bass Pro Shops
- Nebraska Furniture Mart
- Great Wolf Lodge and Resort
- Hollywood Casino
- Children's Mercy Park (Sporting Kansas City)
- Legends Field (Kansas City Monarchs)

Youth and Sports Complexes

The Compass Minerals Soccer National Training and Coaching Development Center, opened in 2018, supports elite performance training and youth development.

The Homefield multi-sport athletic complex continues to expand, including Homefield Outdoor and the Youth Baseball Complex. A 250-room Margaritaville Resort is expected to open in 2025. Plans for additional venues include:

- · Big Shots Golf
- An indoor sports and concert arena.
- The Atlas 9 Art Museum

Industrial Expansion

- General Motors: An estimated \$390 million toward retooling for supported production and assembly of the Bolt Electric Vehicle (EV) at the Fairfax Plant.
- Amazon: Two fulfillment centers, including a 1.08 million-square-foot facility on Leavenworth Road, employ over 5,000 workers on 134 acres.
- Marvin Windows and Doors: A 400,000 square-foot plant with an estimated \$76.5 million investment aiming for a 600-person workforce by 2028.
- Urban Outfitters: A 1 million square foot distribution and fulfillment center, representing
 up to a \$400 million investment, began operations in 2022 and is expected to support up
 to 2,000 jobs.
- Turner Logistics Industrial Park: Developed after nearly a \$13.8 million interchange improvement, the 2.7 million square foot industrial park features seven buildings and approximately 1,800 new jobs.

LONG-TERM FINANCIAL PLANNING

The Kansas City Board of Public Utilities (BPU) continues to take a strategic approach to planning and investing in its infrastructure to meet the community's current and future needs. The utility leverages long-term capital planning to ensure that system reliability, regulatory compliance, and service expectations remain sustainable.

BPU utilizes a five-year Capital Improvement Program (CIP) to identify and prioritize electric and water utility projects. These projects are planned based on system condition, capacity requirements, safety, and growth projections. The plan is reviewed and updated annually to reflect available financial resources, external funding opportunities, and emerging operational priorities.

Electric Utility Capital Plan

BPU's electric utility capital improvement plan outlines an estimated \$214 million in projects focused on generation, transmission, and distribution system upgrades. Projects are scheduled over a multi-year horizon and are designed to:

- Enhance system reliability and redundancy.
- Replace aging infrastructure.
- Support new commercial and industrial loads.
- Comply with federal and state reliability and safety standards.

Water Utility Capital Plan

The water utility's capital improvement plan identifies approximately \$127 million in long-term investments to upgrade aging water mains, treatment infrastructure, and pumping systems. The plan supports:

- Improved service reliability.
- Replacement of vulnerable or undersized lines
- Compliance with public health regulations.
- Enhanced resiliency for high-demand and emergency situations.

CASH MANAGEMENT AND INVESTMENT POLICY

BPU maintains a conservative and disciplined approach to cash management. The utility's primary objectives in managing public funds are to preserve capital, ensure liquidity, and maximize investment returns within the boundaries of state statutes and internal policy quidelines.

BPU's cash management policy encourages the timely investment of all funds not required for immediate expenditure. Investments are made per Kansas statutes governing the management of public funds and the utility's internally adopted investment policy, which is reviewed periodically by the Board of Directors.

Key principles of the policy include:

- Safety: Safeguarding principal is the foremost objective.
- Liquidity: Ensuring sufficient cash flow to meet obligations.
- Yield: Attaining a market rate of return on investments, consistent with the parameters of safety and liquidity.

Funds are managed through a combination of internal oversight and third-party custodial relationships. Executive leadership and the board review monthly and quarterly reporting. Investment practices and holdings are audited annually as part of the independent financial audit process.

INTERNAL CONTROL

The BPU's management is responsible for establishing and maintaining internal controls that safeguard the utility's assets, ensure the integrity of financial records, and support the preparation of financial statements per Generally Accepted Accounting Principles (GAAP).

BPU's internal control framework is intended to provide reasonable, rather than absolute, assurance that these objectives are achieved. This distinction acknowledges two core principles:

- 1. The cost of implementing a control should not exceed the expected benefit.
- 2. Evaluating costs and benefits requires management's judgment and estimation.

Key objectives of BPU's internal control system include:

- Protecting assets from loss, theft, or misuse.
- Promoting operational efficiency.
- Ensuring accurate and timely financial reporting.
- Supporting compliance with laws, regulations, and internal policies.

Internal controls are evaluated regularly through management oversight, independent audits, and compliance reviews. Findings are used to strengthen the system and ensure accountability throughout the organization.

MAJOR INITIATIVES

BPU continues to invest in infrastructure and system improvements to enhance service reliability, support regional growth, and modernize aging utility assets.

In 2024, BPU advanced key capital projects across the electric and water systems to strengthen resiliency, improve efficiency, and support long-term sustainability.

Electric Utility Projects

- Speaker Substation Replacement Muncie Area
 BPU has begun a significant upgrade of the Speaker Substation. This multi-year project
 will improve capacity and reliability for the surrounding neighborhoods. Construction is
 scheduled to be completed by 2027.
- Urban Outfitters Load Support Speedway Area
 To support growing commercial load near the Kansas Speedway, BPU is building out
 additional overhead distribution infrastructure. This work is expected to be completed by
 2026.
- Distribution Pole Inspection and Replacement Program
 BPU launched a multi-year inspection program to assess and replace aging distribution
 poles across its territory. Initiated in 2022, the program will continue through 2027, with
 phased evaluations and replacements in all service areas.

Water Utility Projects

- Argentine Reservoir Replacement (7MG)
 Construction of a new 7-million-gallon reservoir in the Argentine area neared project completion in 2024. Once in service, the facility will provide additional water storage and a critical backup supply for the Fairfax Industrial District.
- Emergency Power Resiliency Nearman Water Treatment Plant BPU secured \$3.7 million in FEMA grant funding to install an emergency generator at the Nearman Water Treatment Plant. This \$8.1 million project will enhance resiliency and ensure uninterrupted water treatment during grid outages. Completion is expected by 2026.
- Water Main Replacement Program
 In partnership with the Environmental Protection Agency (EPA) and the Kansas
 Department of Health and Environment (KDHE), BPU began an aggressive program to
 replace 3–5 miles of aging water mains annually. A \$10 million federal grant and a
 KDHE water supply loan are helping finance these replacements over the next several
 years.

GFOA CERTIFICATE OF ACHIEVEMENT AWARD

The Kansas City Board of Public Utilities received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended December 31, 2023. This marked the 43rd consecutive year BPU earned this distinction.

A report must be clearly written, well-organized, and fully compliant with Generally Accepted Accounting Principles (GAAP) and all applicable legal requirements to qualify.

ACKNOWLEDGEMENTS

The preparation of this Annual Comprehensive Financial Report (ACFR) reflects the commitment of many individuals across the Kansas City Board of Public Utilities. Their professionalism and attention to detail ensure that the financial statements presented here are accurate, complete, and transparent.

We extend our sincere appreciation to the Accounting Division for their work in compiling the financial data and ensuring compliance with applicable reporting standards. We also thank the Office of Corporate Communications for its coordination and support in preparing the President's and General Manager's messages and ensuring clarity in public-facing content.

Finally, we thank the Board of Directors and the executive leadership team for their continued guidance and commitment to fiscal responsibility and public service.

Respectfully submitted,

Andrew Ferris

Christopher P. Morrill

Executive Director/CEO

BOARD OF DIRECTORS, PRESIDENT'S MESSAGE

BPU has proudly provided electric and water services for Wyandotte County for over a century. As a community-owned, not-for-profit utility, we aim to deliver safe, reliable, and affordable services that enhance the quality of life for all we serve.

In 2024, BPU continued to invest in infrastructure, strengthen customer relationships, support our community, and ensure strong leadership in general management. We remain focused on transparency, operational excellence, and solutions that benefit today's customers and future generations.

Highlights from the year included:

- Customer Assistance
 - In partnership with the United Way of Greater Kansas City, BPU provided nearly \$500,000 in utility assistance. Since the program's inception, more than \$2.0 million has been distributed.
- Energy Efficiency and Education
 - BPU hosted the 2024 Energy Forum in Kansas City, spotlighting innovations in solar energy, electric vehicles, and conservation strategies for community leaders and customers alike.
- Supplier and Local Investment Support
 - BPU awarded approximately 2,350 contracts totaling nearly \$24 million to Wyandotte County-owned businesses.
- Sustainable Energy Progress
 - By year-end, nearly 50% our energy portfolio came from renewable sources, including wind, solar, hydro, and landfill gas, reflecting our commitment to environmental responsibility.
- Water Quality and Safety
 - Our laboratory conducted over 41,800 tests on 8,700+ samples, ensuring more than billion gallons of drinking water met all health standards.
- Community Engagement and Philanthropy
 - BPU supported numerous local events and charitable causes through corporate giving, employee donations and volunteer service.
- Public Safety Outreach
 - We continued digital outreach, classroom education, and facility tours.
- Workforce Development
 - BPU emphasized employee training, skills development, and recruiting to strengthen BPU's future workforce.
- Leadership Transition
 - Following a national search, the Board of Directors unanimously appointed Jeremy Ash General Manager, succeeding William "Bill" Johnson upon his retirement in late 2024.

Through every initiative, BPU remains anchored in its mission — to provide dependable service at the lowest possible cost while advancing the well-being of Wyandotte County. I am proud of our team's work in 2024 and confident in our continued progress in the years ahead.

Respectfully,

Thomas "Tom" Groneman

Kansas City Board of Public Utilities, 2024 Board President

April 21, 2025

BOARD OF DIRECTORS | 2024

The Board of Directors comprises six members, three elected at-large and three elected by district. Every two years, three members are elected for four-year terms. The Board chooses a president, vice president, and secretary from its membership. The Board meets twice a month, on the first and third Wednesdays. Members receive a monthly salary of \$950. The Unified Government of Wyandotte County, Kansas's treasurer is the board's ex-officio treasurer. The Board hires a General Manager, who serves as BPU's chief executive officer, and administers the utility's day-to-day operations.

Thomas "Tom" Groneman
President
District 2
Elected 2013 | Re-elected: 2017, 2021

A lifelong Wyandotte County resident, Tom Groneman brings decades of public service experience to the BPU Board. He holds a degree in Business and Economics from Bethany College and served in the U.S. Navy as a Vietnamese linguist. After his military service, he was appointed Register of

Deeds, serving seven consecutive terms. In 2003, he was named Director of Alcoholic Beverage Control for the State of Kansas. Mr. Groneman served as BPU Board President from 2016 to 2017, returning to the role in 2024.

David HaleyVice President
Member-at-Large
Elected 2021

David Haley is a long-serving Kansas legislator, first elected to the House in 1994 and the Senate in 2000. He holds degrees from Morehouse College and the Howard University School of Law. Mr. Haley has served on key legislative committees, including Judiciary, Public Health, Ethics, and

Taxation.

He is active in the National Black Caucus of State Legislators and works in public affairs and real estate development.

Stevie Wakes, Sr. Secretary District 1 Elected 2023

Stevie Wakes, Sr., was elected to the BPU Board in 2023 and served as Board Secretary in 2024. He is the longtime pastor of Olivet Institutional Baptist Church and a respected community advocate with over thirty years of leadership in

Kansas City, Kansas. His public service includes past roles with the KCK NAACP, the Unified Government's Northeast Development Plan, and the Dotte Leads leadership initiative.

Mr. Wakes holds Religion, Spanish Education, Divinity, and Business Administration degrees. He has taught in public schools and is fluent in Spanish.

Brett Parker District 3 Elected 2023

Brett Parker was elected to the BPU Board in 2023. A former Kansas State Representative, he has spent his career advocating for public education and community development. Mr. Parker currently works for the Kansas National Education Association, supporting teachers throughout Kansas City.

He holds a B.A. in Secondary Education from the University of Missouri-Kansas City and previously taught English as a second language in the Olathe School District.

Mary Gonzales
Member-at-Large
Elected 2001 | Re-elected: 2005, 2009, 2013, 2017, 2021

Mary Gonzales is a retired educator who served for over 30 years in the Piper School District. She has been an active leader on the BPU Board since 2001, previously holding the roles of President, Vice President, and Secretary.

In addition to her Board service, she is engaged with multiple civic and industry organizations, including the American Public Power Association (APPA), the American Water Works Association (AWWA), and Leadership 2000. Ms. Gonzales holds degrees in Education, and Curriculum and Instruction; she continues to support numerous community development and education initiatives throughout Wyandotte County.

Rose Mulvany Henry Member-at-Large Elected 2019 | Re-elected: 2023

Rose Mulvany Henry is an experienced attorney and regulatory executive with over 30 years of service in the utilities and telecommunications sectors. She is Vice President of Regulatory and Legislative Affairs at Metronet, a national fiber infrastructure provider.

As a lifelong resident of Kansas City, Kansas, Ms. Mulvany Henry has held all officer roles on the BPU Board, including President, Vice President, and Secretary. She earned her B.A. in English from the University of Kansas and her Juris Doctor from Washburn University School of Law. She is licensed to practice in Kansas.

GENERAL MANAGER'S MESSAGE

Since 1909, the BPU has remained committed to delivering safe, reliable, and affordable electric and water services to the people of Wyandotte County. Today, BPU serves more than 67,000 electric and 53,000 water customers across residential, commercial, and industrial sectors.

As a community-owned municipal utility, our operations are driven by service, not profit. In 2024, we continued to uphold the values that define us — accountability, transparency, innovation, and a deep sense of public responsibility. Through strategic investments, cost containment, and a forward-looking approach, BPU remained financially stable while meeting the community's evolving needs.

Key accomplishments in 2024 included:

- Maintaining a Stable Financial Position
 - BPU reduced its annual budget from \$495 million in 2016 to \$392.4 million in 2024, nearly a 21% decrease, despite inflation, workforce investments, and infrastructure upgrades.
- Ensuring Fiscal Sustainability

The utility maintained strong cash reserves, debt coverage, and credit ratings, earning an 'A' and 'Stable Outlook' from Fitch Ratings and S&P Global, and an 'A2' from Moody's. BPU also received the GFOA Award for Excellence in Financial Reporting for the 43rd consecutive year.

• Capital Infrastructure Investments

BPU advanced multiple capital projects, including:

- Approximately \$5.4 million in upgrades to the Nearman Power Plant.
- Nearly \$5.0 million in aging water main replacements.
- o An estimated \$4.2 million for overhead transformer replacements.
- Over \$3.0 million toward the Argentine 7MG Reservoir project.
- Recognition and Awards

BPU's website earned national honors from APPA and the American Business Awards, while individual staff were recognized with top honors from KMEA, AWWA, and the Black Achievers Society.

Community Engagement and Youth Development

The 2024 BPU Charity Golf Tournament raised over \$60,000 for local children's charities, while our Summer Youth Program supported job skills development for youth across nine nonprofits.

Process and Performance Improvements

BPU advanced operational efficiency through technology adoption, enterprise benchmarking, and the implementation of utility-wide performance standards.

Throughout the year, our team remained focused on the fundamentals: dependable service, fiscal accountability, and a commitment to public value. Looking ahead, we will continue to:

- 1. Meet system demand through resilient production and delivery.
- 2. Expand renewable energy integration.
- 3. Improve accessibility through flexible payment options.
- 4. Leverage technology to enhance service and efficiency.
- 5. Promote conservation and responsible resource use.
- 6. Maintain full compliance with regulatory obligations.

BPU's employees take pride in the essential services we provide — and in our role as neighbors, partners, and stewards of this community. We remain dedicated to serving Wyandotte County with integrity, innovation, and respect.

Respectfully,

Sul

Jeremy Ash Kansas City Board of Public Utilities, General Manager April 21, 2025

GENERAL MANAGER | 2024

William "Bill" A. Johnson General Manager Retired | December 31, 2024

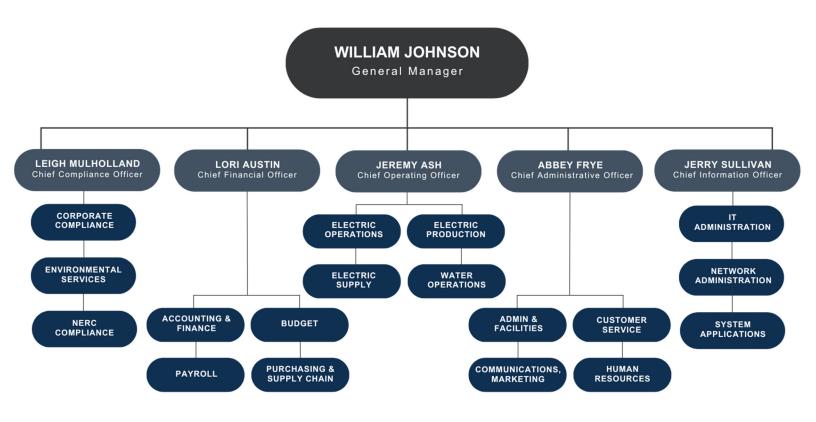

William A. Johnson has served the Kansas City Board of Public Utilities (BPU) for nearly 45 years, rising from an entry-level position to its General Manager. He earned his MBA from Ottawa University in 2007.

Before becoming General Manager, Mr. Johnson led BPU's Electric Operations & Technology Division, overseeing electric transmission and distribution, engineering, IT, telecommunications, and fleet operations. Throughout his career, he has led the modernization of BPU's electric infrastructure and implemented enterprise-wide technologies to enhance utility performance and customer service.

He is a past President of Kansas Municipal Utilities and the Kansas-Missouri chapter of the American Association of Blacks in Energy. He currently serves on the Kansas City, Kansas United Way board and has previously served on the Boys & Girls Club board.

Mr. Johnson is also an active member of the American Public Power Association (APPA) and the Rocky Mountain Electric League (RMEL). His service has been recognized with several honors, including the *Black Achievers Award* and the *Black Man of Distinction Award*.

Independent Auditor's Report

The Board of Directors Board of Public Utilities Kansas City, Kansas

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Board of Public Utilities of Kansas City, Kansas (the BPU), an enterprise fund of the Unified Government of Wyandotte County/Kansas City, Kansas, as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the BPU's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the BPU, as of December 31, 2024 and 2023, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS); the *Kansas Municipal Audit and Accounting Guide* (the Guide); and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the BPU, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in *Note 1* to the financial statements, the financial statements present only the BPU and do not purport to, and do not, present the financial position of the Unified Government of Wyandotte County and Kansas City, Kansas as of December 31, 2024 and 2023, the changes in its financial position, or, where applicable, its cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the BPU's ability to continue as a going concern for one year after the date that the financial statements are issued, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the BPU's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the BPU's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other postemployment information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Combining Statements are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the Combining Statements are fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the Introductory and Statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 18, 2025, on our consideration of the BPU's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the BPU's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the BPU's internal control over financial reporting and compliance.

Management's Discussion and Analysis December 31, 2024 and 2023 (Unaudited)

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Board of Public Utilities of Kansas City, Kansas's (BPU) financial statements. The BPU's financial statements comprise two components: 1) financial statements and 2) notes to the financial statements. Other required supplementary information is provided in addition to the financial statements.

Financial Statements

The financial statements are designed to provide readers with a broad overview of the BPU's finances in a manner similar to a private-sector business.

The statement of net position presents information on BPU's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between these reported as net position. Over time, increases/decreases in net position may serve as a useful indicator of whether the financial position of the BPU is improving/deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how BPU's net position changed during the most recent fiscal year. All changes in net position are reported as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (for example, uncollected payments-in-lieu of taxes and earned but unused vacation leave).

Notes to the Financial Statements

The notes provide additional information essential to a full understanding of the data provided in the financial statements.

Other Information

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information concerning the BPU's progress in funding its obligation to provide pension and postretirement benefits to its employees.

The combining statements for the BPU's electric and water utilities are presented immediately following the required supplemental information.

The BPU is an administrative agency of the Unified Government of Wyandotte County/Kansas City, Kansas (Unified Government).

The electric and water departments are reflected as an enterprise fund on the Unified Government's financial statements consisting of the statement of net position; statement of revenues, expenses and changes in net position; and statement of cash flows. This management's discussion and analysis of the BPU's financial report presents the discussion and analysis of the BPU's financial performance for the years ended December 31, 2024 and 2023 with selected comparative information of the year ended December 31, 2022. This analysis should be read in conjunction with the financial statements and notes thereto.

Management's Discussion and Analysis December 31, 2024 and 2023 (Unaudited)

The following tables summarize the financial condition and operations of the BPU as of December 31, 2024, 2023 and 2022 and for each of the years then ended:

Financial Highlights

2024 Compared to 2023

- Net capital assets increased by \$8.1 million in 2024. The increase is attributed to additions associated with electric and water transmission and distribution assets, as well as additions to general plant assets.
- Debt service coverage ratio for 2024 increased to 3.01 times in comparison with 2.67 for the year ended 2023.
- The net pension liability for 2024 decreased to \$8.4 million compared to \$20.4 million as of December 31, 2023. See footnote 9 for further details.
- Deferred outflows of resources decreased by \$29.1 million, primarily due to a \$28.6 million decrease in deferred outflows of resources pension.

Management's Discussion and Analysis December 31, 2024 and 2023 (Unaudited)

- Deferred inflows of resources decreased by \$27.5 million, primarily due to a \$26.8 million decrease in the deferred inflow of resources pension.
- Net position increased by \$55.3 million during 2024.

In 2024, the BPU's operating revenues were approximately \$372.4 million, with the Electric Utility recognizing revenues of \$314.7 million and the Water Utility recognizing revenues of \$57.7 million. The average number of customer accounts remained stable from the prior year.

The BPU's total operating revenue increased by approximately \$17.1 million to \$372.4 million in 2024. The Electric Utility experienced increased electric sales by \$14.4 million compared to 2023. The Water Utility experienced an increase of \$2.7 million in water sales compared to 2023. In comparison to the 2024 budgeted revenue, overall, the BPU collected 102% of the projected Energy and Water sales and 100% of total operating revenue.

Operating expenses for 2024 and 2023 were approximately \$266.6 million and \$264.0 million, respectively. The Electric Utility represented \$227.4 million and \$226.3 million for 2024 and 2023, respectively, while the Water Utility represented \$39.2 million and \$37.7 million for 2024 and 2023 in operating expenses, respectively. The largest components of operating expenses are fuel, purchased power and production expense. Overall, in 2024, fuel, purchased power and electric production costs totaled \$138.2 million which is \$3.2 million more than 2023. The BPU's power supply mix for fiscal years 2024 and 2023 was 16% and 17% coal, 65% and 63% net power purchases, 11% and 13% gas, and 8% and 7% oil, respectively.

2023 Compared to 2022

- Net capital assets increased by \$10.0 million in 2023. The increase is attributed to additions
 associated with electric and water transmission and distribution assets, as well as additions to
 general plant assets.
- Debt service coverage ratio for 2023 decreased to 2.67 times in comparison with 2.83 for the year ended 2022.
- The net pension asset of \$23.3 million as of December 31, 2022 became a net pension liability of \$20.4 million as of December 31, 2023. See footnote 9 for further details.
- Deferred outflows of resources increased by \$54.4 million due to the pension.
- Deferred inflows of resources increased by \$14.1 million due to the pension.
- Total other postemployment benefit liability decreased \$16.4 million primarily due to changes in Tier II participants benefits, changes in claim cost and aging assumptions, and changes in the discount rate.
- Net position increased by \$36.8 million during 2023.

Management's Discussion and Analysis December 31, 2024 and 2023 (Unaudited)

In 2023, the BPU's operating revenues were approximately \$355.3 million, with the Electric Utility recognizing revenues of \$300.3 million and the Water Utility recognizing revenues of \$55 million. The average number of customer accounts remained stable from the prior year.

The BPU's total operating revenue decreased by approximately \$29.7 million to \$355.3 million in 2023. The Electric Utility experienced decreased electric sales of \$31.9 million compared to 2022. The Water Utility experienced an increase of \$2.2 million in water sales compared to 2022. In comparison to the 2023 budgeted revenue, overall, the BPU collected 105% of the projected Energy and Water sales and 103% of total operating revenue.

Operating expenses for 2023 and 2022 were approximately \$264 million and \$279.8 million, respectively. The Electric Utility represented \$226.3 million and \$244.1 million for 2023 and 2022, respectively, while the Water Utility represented \$37.7 million and \$35.7 million for 2023 and 2022 in operating expenses, respectively. The largest components of operating expenses are fuel, purchased power and production expense. Overall, in 2023, fuel, purchased power and electric production costs totaled \$135 million which is \$30.7 million less than 2022. The BPU's power supply mix for fiscal years 2023 and 2022 was 17% and 22% coal, 63% and 55% net power purchases, 13% and 16% gas, and 7% and 7% oil, respectively.

Capital Assets

2024 Compared to 2023

Net capital assets increased by \$8.1 million in 2024. Capital asset additions were offset by approximately \$44.6 million of depreciation and amortization expense.

Refer to *Note 5* to the financial statements for additional information.

2023 Compared to 2022

Net capital assets increased by \$9.9 million in 2023. Capital asset additions were offset by approximately \$44.2 million of depreciation and amortization expense.

Refer to *Note 5* to the financial statements for additional information.

Debt Administration

2024 Compared to 2023

Noncurrent liabilities outstanding as of December 31, 2024 and 2023 were \$589.4 million and \$629.1 million, respectively.

The BPU maintains a debt ratio that is consistent with the current provisions in the bond indenture document. This debt service ratio is a measure of the adequacy of cash to pay debt service and is the minimum amount necessary to prevent bond default. The BPU must maintain debt coverage of 1.2. The coverage requirement imposed by the bond indenture is that operating revenues be at least 120% of the maximum annual debt service.

Management's Discussion and Analysis December 31, 2024 and 2023 (Unaudited)

The BPU also has a mandatory provision in its bond indentures for a debt service trigger when debt coverage is 1.3 times or below the annual debt service payment amounts.

As of December 31, 2024, and 2023, the BPU had debt coverage of 3.01 times and 2.67 times, respectively.

In 2024, the BPU's utility system bonds for both electric and water debt are rated A from both Fitch and Standard & Poor's Rating Services and A2 from Moody's Investors Service. The interest rate on the BPU's outstanding debt ranges from 0.69% to 5.00%. Interest on debt expense for 2024 and 2023 was \$19.9 million and \$20.8 million, respectively.

Refer to *Note 6* to the financial statements for additional information.

2023 Compared to 2022

Noncurrent liabilities outstanding as of December 31, 2023 and 2022 were \$629.1 million and \$649.0 million, respectively.

The BPU maintains a debt ratio that is consistent with the current provisions in the bond indenture document. This debt service ratio is a measure of the adequacy of cash to pay debt service and is the minimum amount necessary to prevent bond default. The BPU must maintain debt coverage of 1.2. The coverage requirement imposed by the bond indenture is that operating revenues be at least 120% of the maximum annual debt service.

The BPU also has a mandatory provision in its bond indentures for a debt service trigger when debt coverage is 1.3 times or below the annual debt service payment amounts.

As of December 31, 2023, and 2022, the BPU had debt coverage of 2.67 times and 2.83 times, respectively.

In 2023, the BPU's utility system bonds for both electric and water debt are rated A from both Fitch and Standard & Poor's Rating Services and A2 from Moody's Investors Service. The interest rate on the BPU's outstanding debt ranges from 0.69% to 5.00%. Interest on debt expense for 2023 and 2022 was \$20.8 million and \$22.0 million, respectively.

Notes to Financial Statements
December 31, 2024 and 2023

Note 1: Summary of Significant Accounting Policies

Description of Business

The Board of Public Utilities of Kansas City, Kansas (the BPU) consists of the municipal electric and water utility, which provide services to approximately 67,000 electric and 53,000 water customers.

Under Charter Ordinance of the Unified Government of Wyandotte County, Kansas City, Kansas (the Unified Government), the BPU is an administrative agency of the Unified Government and, as such, is a part of the Unified Government's primary government. However, the BPU's operational and administrative control is under a six-member elected board of directors (the Board). The accompanying financial statements represent the combination of only those operations related to the Unified Government's electric and water utility. The financial statements do not purport to and do not present the financial position of the Unified Government

Basis of Accounting

The BPU accounts for the water and electric utility as an enterprise fund. Significant interdepartmental accounts, including interdepartmental sales, have been eliminated. The BPU uses the economic resources measurement focus and accrual basis of accounting under which revenues are recognized when earned and expenses are recorded when liabilities are incurred. The BPU's accounting policies conform to the requirements for regulated operations. In accordance with these rules, certain costs or credits may be recorded as deferred charges or credits when it is probable that future rates established by the Board permit recovery of specific costs or require these credits to be returned to ratepayers. The BPU applies the provisions of GASB Accounting Standards Codification Section Re10, *Regulated Operations*, as appropriate.

Revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from providing services in connection with ongoing operations. Operating revenues include activities that have characteristics of exchange transactions, including charges for services. Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as grants, subsidies and investment income. Operating expenses include the cost of service, payroll, administrative expenses, contractual services and depreciation. All expenses not meeting the above criteria are classified as nonoperating.

Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the useful lives of capital assets; allowances for doubtful accounts, and inventory; employee benefit obligations, environmental liabilities and other contingencies.

Notes to Financial Statements December 31, 2024 and 2023

Revenue Recognition

Operating revenues are recognized when electric and water services are delivered to customers. Payment-in-lieu of taxes represents amounts billed and collected by the BPU on behalf of the Unified Government. The BPU remits all such amounts to the Unified Government.

Meters are read and bills are rendered on a cycle basis. Unbilled revenue represents services delivered to customers and not billed at the end of a period. Management accrues estimated delivered amounts each period.

Operating revenues reported in the statements of revenues, expenses and changes in net position are shown net of discounts and estimated allowances for doubtful accounts.

Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased. Current restricted assets are assets that are scheduled to be disbursed within the year.

Capital Assets

Capital assets are stated at cost to acquire or cost to construct. These costs include payroll-related costs, including pensions and other fringe benefits. For depreciable assets that are retired due to circumstances other than impairment, the net book value of assets retired plus the cost of removal, less salvage, is charged against accumulated depreciation with no gain or loss recognized. Per the financial reporting requirements of GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, any losses associated with capital asset impairments will be charged as a non-operating expense. Repairs and maintenance are charged to maintenance expense. Contributions from developers and others are stated at acquisition value at the date donated. Currently, the BPU has a capitalization threshold of \$5,000 for plant assets.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The BPU has three items that meet the criterion for reporting as deferred outflows on the statement of net position, the deferred charge on bond refunding, the changes in assumptions in the pension plan, and contributions made to retirement and other postemployment benefit plans subsequent to the measurement date. A deferred charge on refunding results from the difference in the carrying value of refunded debt. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The changes in assumptions in the pension plan are recognized in pension expense over the average working lifetime of all plan participants, beginning in the current reporting period. These amounts are described in detail in *Note 9*.

Notes to Financial Statements December 31, 2024 and 2023

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue and/or contra expense) until that time. The BPU will report certain changes in assumptions relating to the OPEB plan, difference between expected actual expense in the pension and OPEB plans, difference between expected and actual earnings in the pension plan, deferred charge on refunding, recovery fuel purchased power, and leases as deferred inflows of resources on the statement of net position.

Depreciation

The BPU depreciates plant and equipment on a composite basis over their estimated useful lives on a straight-line basis.

	Composite Rates	Useful Lives (in years)
Production plant	2.57%-4.00%	25–39
Transmission and distribution	1.63%-6.67%	15–61
General plant	2.00%-7.75%	13–50

Accounts Receivable

An estimate is made for the provision for uncollectible accounts based on an analysis of the aged accounts receivable and historical write-offs, net of recoveries. Additional amounts may be included based upon management's evaluation of customer credit risks. Allowances for doubtful accounts totaled (\$644) and (\$90) thousand at December 31, 2024 and 2023, respectively.

Inventories

Inventories are stated at cost and consist of the following:

	 2024	2023
Fuel Material and supplies	\$ 9,623,111 22,623,467	\$ 12,189,611 21,365,342
Total	\$ 32,246,578	\$ 33,554,953

0004

2022

Notes to Financial Statements December 31, 2024 and 2023

Investments

Investments consist of deposits, repurchase agreements, certificates of deposit, money market funds, and U.S. Agencies securities, which are recorded at estimated fair value as determined by market prices. Certain repurchase agreements that meet the definition of a participating interest earning investment contract per GASB 72, with a remaining maturity of less than one year at the time of purchase are carried at amortized cost. The BPU's investment policies are governed by the BPU's Charter Ordinance, management policies, and statutes established by the State of Kansas. Securities are held by the BPU's safekeeping agent. Cash deposits are held with banks insured by Federal Deposit Insurance Corporation (FDIC) and acceptable collateral is maintained for amounts above FDIC limits, equal to or greater than 102% of the funds deposited at all times.

Brushy Creek Coal Company and Liberty Coal Company

The BPU holds an indirect 50% interest in Brushy Creek Coal Company (BCCC) and a 50% indirect interest in Liberty Coal Company (Liberty). The other 50% interest in both BCCC and Liberty is indirectly owned by the City of Sikeston, Missouri (Sikeston). BCCC was the owner and operator of a coal mine and related equipment located in Illinois. BCCC discontinued mining operations in 1997. BCCC did not have material operations during the years ended December 31, 2024 and 2023. Upon cessation of operations at BCCC, the BPU became contractually responsible for 50% of asset retirement obligations and for 50% of certain postretirement benefits to mine workers. At December 31, 2024 and 2023, the BPU has recorded an estimated liability of \$646,000 and \$714,000, respectively, within accrued claims payable for its estimated remaining share of these obligations. Funding provided for these obligations was \$240,000 in 2024 and 2023.

The amounts recorded for the BPU's portion of the asset retirement obligation and the miners' benefits require significant judgment and involve a number of estimates. The BPU has recorded its estimated obligations for each of these items using information currently available to management. These estimates could change significantly over time.

Customer Deposits

Customer deposits are moneys that have been collected from customers that are held by the BPU until the customer either terminates their service or the customer is in good credit standing with the BPU for 12 months. The funds are held in an interest-bearing account; after 12 months, the deposit, plus interest, is credited back to the customer.

Debt Issuance Costs

Debt issuance costs are expensed as incurred with the exception that bond insurance premiums are capitalized and amortized over the life of the bonds.

Notes to Financial Statements December 31, 2024 and 2023

Pensions

The net pension liability is calculated as the difference between the actuarially calculated value of the projected benefit payments attributed to past periods of service and the plans' fiduciary net position. The total pension expense is comprised of the service cost or actuarial present value of projected benefit payments attributed to the valuation year, interest on the total pension liability, plan administrative expenses, current year benefit changes, and other changes in plan fiduciary net position less employee contributions and projected earnings on plan investments. Additionally, the total pension expense includes the annual recognition of outflows and inflows of resources due to pension assets and liabilities.

For purposes of measuring the net pension liability, deferred outflows of resources related to pensions, pension expense, and information about the fiduciary net position of the Retirement Pension Plan for Employees of the Board of Public Utilities of Kansas City, Kansas (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources related to OPEB and OPEB expense have been determined on the same basis as they are for the OPEB Plan. For this purpose, benefit payments are funded on a pay-as-you-go basis. The BPU funds on a cash basis as benefits are paid. No assets have been segregated and restricted to provide for postretirement benefits. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. The following timeframes are used for the year ended December 31, 2024:

- Valuation Date January 1, 2024
- Measurement Date December 31, 2024
- Measurement Period January 1, 2024 to December 31, 2024

For the year ended December 31, 2023:

- Valuation Date January 1, 2024
- Measurement Date December 31, 2023
- Measurement Period January 1, 2023 to December 31, 2023

Notes to Financial Statements December 31, 2024 and 2023

Vacation and Sick Leave

The BPU adopted GASB 101, *Compensated Absences*, during 2024. For further information, see the Accounting Pronouncements – Adopted in 2024 paragraph within *Note 1*. Under the terms of the BPU's personnel policy, employees are granted vacation and sick leave. In the event of termination, an employee is paid for accumulated vacation days. Employees may carry over, from year to year, a maximum of 120 hours of vacation hours for bargaining unit employees and 120 hours for non-bargaining employees. The liability for accumulated vacation of \$1,904,540 and \$1,887,500 includes current vacation of \$202,461 and \$136,460 at December 31, 2024 and 2023, respectively, which is included in reserve for compensated absences and payroll and payroll tax liabilities in the accompanying statements of net position. Sick leave can be accrued up to 1,760 hours. Employees who resign with at least 15 years of service are paid for 75% of accumulated sick leave. All employees are paid for accumulated sick leave upon retirement or death. The liability for accrued sick leave of \$11,653,347 and \$7,352,600 includes current sick leave of \$1,243,725 and \$545,800 at December 31, 2024 and 2023, respectively, which is included in reserve for compensated absences and payroll and payroll taxes in the accompanying statements of net position.

			2024	
	_	Beginning Balance	Additions/ (Reductions)	Ending Balance
Sick leave Vacation	\$	7,352,600 1,887,500	\$ 4,300,747 \$ 17,040	11,653,347 1,904,540
			2023	
	_	Beginning Balance	Additions/ (Reductions)	Ending Balance
Sick leave Vacation	\$	7,043,400 1,700,500	\$ 309,200 \$ 187,000	7,352,600 1,887,500

Net Position

In the financial statements, net position is displayed in three components as follows:

- Net investment in capital assets This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- Restricted This consists of net positions that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is generally the BPU's policy to use restricted resources first, then unrestricted resources as they are needed.
- Unrestricted This consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

Notes to Financial Statements December 31, 2024 and 2023

Accounting Pronouncements - Adopted in 2024

GASB Statement 100, Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this statement are effective for fiscal years beginning after June 15, 2023 which is the fiscal year beginning January 1, 2024. The implementation of GASB Statement No. 100 had no effect on the financial statements.

GASB Statement No. 101, Compensated Absences. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this statement are effective for fiscal years beginning after December 15, 2023 which is the fiscal year beginning January 1, 2024. The implementation of GASB Statement No. 101 resulted in an increase of the liability of accrued sick leave of \$4.3 million at December 31, 2024. The impact of GASB Statement No. 101 was deemed immaterial to the 2023 financial statements and there is no effect recognized at December 31, 2023. For further information on compensated absences, see the Vacation and Sick Leave paragraph within Note 1.

New Accounting Pronouncements - Not Yet Effective

This report does not incorporate GASB Statement No. 102, Certain Risk Disclosures, GASB Statement No. 103, Financial Reporting Model Improvements and GASB Statement No. 104, Disclosure of Certain Capital Assets. The BPU will adopt and implement these statements at the required time. The BPU's management has not yet determined the effect the statements will have on the BPU's financial statements.

Reclassifications

Certain reclassifications have been made to the 2023 net position classifications within the financial statements to conform to the 2024 financial statement presentation. These reclassifications had no effect on net earnings.

Note 2: Cash and Investments

Kansas state statutes authorize the BPU, with certain restrictions, to invest in open accounts, time deposits, certificates of deposit, U.S. Treasury notes and U.S. agency notes. All deposits with banks are collateralized at 102% of market value, as required by the BPU's Cash and Investment Policy and Kansas state statute, less insured amounts.

Notes to Financial Statements December 31, 2024 and 2023

The following represents the BPU's total cash and investments at December 31, 2024 and 2023:

	_	2024		2023
Cash and certificates of deposit (CDs)	\$	645,322	\$	346,349
Repurchase agreements		85,318,112		66,881,368
U.S. Agencies		16,078,019		16,074,039
Money market funds	_	4,086,923	_	4,106,022
Total cash and investments	\$	106,128,376	\$	87,407,778

Cash and investments are included in the following statement of net position accounts at December 31, 2024 and 2023:

	_	2024	2023
Current assets:			
Cash and cash equivalents	\$	76,936,523	\$ 58,201,905
Cash and cash equivalents – restricted		11,613,834	11,631,834
Investments – restricted		16,078,019	16,074,039
Noncurrent restricted assets:			
Cash and cash equivalents	_	1,500,000	 1,500,000
	\$	106,128,376	\$ 87,407,778

Deposits and Investments

The BPU maintains a cash and investment program to pay for operating and capital requirements, as well as, for debt service requirements. The investment program consists of deposits, repurchase agreements, certificates of deposit and U.S. Treasury securities. Other investments using U.S. agency and money market fund securities for the debt service program are managed by the bond trustee. Nearly all maturities of securities were less than one year. At December 31, 2024 and 2023, the bank balance and certificates of deposit were \$645,322 and \$346,349, respectively, which were covered by federal depository insurance or collateral held in safekeeping in the BPU's name.

Notes to Financial Statements December 31, 2024 and 2023

The fair values, as determined by market prices, of the BPU's cash and investments at December 31, 2024 are as follows:

	Investment Maturities						
Investment Type	_	Fair Value		Less than 6 Months		6–12 Months	
Cash and CDs Repurchase agreements U.S.Agencies Money market funds	\$	645,322 85,318,112 16,078,019 4,086,923	\$	645,322 85,318,112 6,273,994 4,086,923	\$	9,804,025	
Total	\$	106,128,376	\$	96,324,351	\$	9,804,025	

The fair values, as determined by market prices, of the BPU's cash and investments at December 31, 2023 are as follows:

		Investment Maturities					
Investment Type		Fair Value		Less than 6 Months		6–12 Months	
Cash and CDs Repurchase agreements U.S.Treasuries and U.S.Agencies Money market funds	\$	346,349 66,881,368 16,074,039 4,106,022	\$	346,349 66,881,368 6,478,889 4,106,022	\$	9,595,150	
Total	\$_	87,407,778	\$	77,812,628	\$_	9,595,150	

Investment Policy

The BPU has an investment policy that regulates investments in securities that have objectives of safety of principal, liquidity with all investments in U.S. dollars, and investment returns optimized within the constraints of safety and liquidity. Eligible securities are specific to Kansas state statutes and the BPU's bond indenture agreements. All securities owned by the BPU are in conformance with the investment policy.

Credit Risk

Credit risk is the risk that an entity will not be able to honor its commitments in the event of liquidation. The BPU's investment policy states that the investment portfolio be designed and managed in accordance with the responsibility of ensuring the public's trust and is consistent with state and local laws. Two investment objectives that the BPU strives for are safety and liquidity. Investments are made so as to minimize the potential for realized losses arising from changes in fair value or issuer default. Sufficient liquidity is also maintained in order to meet the anticipated cash needs of the utility. The BPU manages credit risk by requiring all investments meet the investment guidelines as established by the State of Kansas as described in K.S.A. 12-1675 and 10-131. These statutes require all investments be in (a) U.S. Treasury securities; (b) U.S. agency securities; (c) Money Market Mutual Funds; (d) Repurchase Agreement securities; (e) and any

Notes to Financial Statements December 31, 2024 and 2023

external investment pools and be the highest rated by nationally recognized rating agencies. All of the BPU's securities including money market mutual funds are AAA rated by Moody's. Any bank deposits and certificates of deposit are fully collateralized by the FDIC or other qualifying securities. All securities held by the BPU meet the credit quality objective.

Custody Risk

Custody risk is the risk that, in the event of the failure of the counterparty to a transaction, an entity will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The BPU believes it has no custodial risk. All securities are registered in the name of the BPU and held by a third-party safekeeping agent. Investments in money market mutual funds are not exposed to custodial risk because their existence is not evidenced by securities that exist in physical or book entry form.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The BPU manages credit risk by requiring all investments meet the investment guidelines as established by the state of Kansas in K.S.A. 12-1675 and 10-131 and diversifying investment holdings to avoid high concentration of any one security issuer. The BPU has a concentration of credit risk where it holds more than 5% of its investment portfolio in any one security issuer other than U.S. Treasury securities and in investment pools.

The following U.S. agency securities held in safekeeping by the BPU's bond trustee are in excess of 5% of total investments as of December 31, 2024:

Issuer	Amount	Total Portfolio
Federal Home Loan Bank	\$ 16,078,019	15.15%

The following U.S. agency securities held in safekeeping by the BPU's bond trustee are in excess of 5% of total investments as of December 31, 2023:

		Percentage of
Issuer	Amount	Total Portfolio
Federal Home Loan Bank	\$ 16,074,039	18.39%

Interest Rate Risk

Interest rate risk is the risk that the fair value of the BPU's investments will decrease as a result of the increase in interest rates. The BPU investment policy requires the minimization of the risk of fair value change. This is accomplished by structuring the investment portfolio so that fixed income securities mature to meet cash requirements for debt service and other disbursement requirements for ongoing operations and by keeping maturities short.

Notes to Financial Statements December 31, 2024 and 2023

Derivatives

The BPU has not used derivative instruments historically. Contracts containing derivatives, such as coal procurement and other commodity purchase contracts are routinely evaluated and amounts purchased have been used by the BPU in producing power and qualify as normal purchases.

Non-restricted Designated Assets

Certain cash and investment amounts have been designated by Board policy for specific purposes as follows:

	_	2024	2023
Economic development fund	\$	200,000	\$
Capital debt reduction		6,290,000	6,290,000
Reserve - public liability		1,000,000	1,000,000
Reserve - workers' comp		1,100,000	1,100,000
Rate stabilization fund		9,156,273	9,156,273
System development reserve		12,861,866	12,320,368
ERC Reserve	_	7,500,000	 1,500,000
Total	\$	38,108,139	\$ 31,366,641

Note 3: Restricted Assets

Restricted assets were held in the following funds at December 31, 2024 and 2023:

	_	2024	2023
Debt service fund	\$	20,164,943	\$ 20,180,060
Customer deposits		7,526,910	7,525,813
Improvement and emergency fund		1,500,000	 1,500,000
Total restricted assets	\$	29,191,853	\$ 29,205,873

The BPU is permitted to invest funds in specified types of investments in accordance with its investment policy until the time such funds are required to be disbursed for their designated purposes.

Notes to Financial Statements December 31, 2024 and 2023

Note 4: Dogwood Energy Facility (Dogwood)

BPU owns an undivided 17% interest in the assets of the Dogwood Energy Facility (Dogwood), a natural gas-fired combined cycle generating plant located in Pleasant Hill, Missouri in Cass County, Missouri, operated by Dogwood Energy, LLC. In addition to the BPU, Kansas Power Pool (KPP), Missouri Joint Municipal Electric Utility Commission (MJMEUC) and the City of Independence, Missouri also own 10.3%, 16.4% and 12.3%, respectively, of the Dogwood Energy Facility. Dogwood Energy, LLC maintains the remaining ownership (44.0%) in the facility.

The BPU's portion of the 630 megawatt (MW) rated capability of Dogwood is approximately 110 megawatts (MW). Generation from Dogwood and operating expenses incurred by Dogwood are allocated to the BPU based on the 17% ownership interest. The BPU's proportionate share of their plant operating expenses is included in the corresponding operating expenses in the statement of net position. In addition, the BPU is required to provide its share of financing for any capital additions to Dogwood. During 2024 and 2023, the BPU's portion of fuel expense was \$7,094,485 and \$8,520,091, respectively, and its portion of operating and maintenance expense was \$4,343,173 and \$4,546,801, respectively. The BPU also receives a portion of the wholesale sales generated by the Dogwood plant. The BPU received \$12,250,182 and \$16,069,884 during 2024 and 2023, respectively, in wholesale sales from Dogwood. These amounts are included in the accompanying statements of revenues, expenses and changes in net position.

The BPU applied proportionate consolidation rules to record its undivided ownership interest in this facility. The BPU's investment includes an acquisition adjustment of \$34.8 million, which is presented as property, plant, and equipment and amortized over the estimated life of the plant (29.1 years). The BPU paid 15 years of Payment-in-Lieu of Taxes (PILOT) to Cass County, Missouri in the amount of \$2.5 million. This was recorded as a prepayment and is being amortized until 2028.

The BPU Board of Directors has approved the recovery of amounts invested in this facility, including the acquisition adjustments in current rates.

Information relative to the BPU's ownership interest in Dogwood as of December 31, 2024 and 2023, is shown in the table below. These amounts are included in the 2024 and 2023 Capital Assets table in *Note 5*.

Facility (type)	Percent Ownership	Net MW	Plant in Service	Accumulated Depreciation	CWIP
2024 Dogwood (combined cycle)	17%	110	\$ 46,356,819	\$ 16,073,367	\$ 3,550,024
2023 Dogwood (combined cycle)	17%	110	\$ 46,303,778	\$ 14,522,907	\$ 2,209,687

The BPU has an operating agreement with Dogwood Energy, LLC, which provides for a management committee comprising one representative and an alternate from each participant. Dogwood Power Management, LLC, the project management company, controls the operating and maintenance decisions of Dogwood in its role as operator. The BPU and other participating

Notes to Financial Statements December 31, 2024 and 2023

entities have joint approval rights for the annual business plan, the annual budget and material changes to the budget.

Note 5: Capital Assets

Capital asset activity for the year ended December 31, 2024 is as follows:

			_					

As discussed in *Note 4*, on December 18, 2012, the BPU acquired an undivided 17% interest in the assets of the Dogwood Energy Facility. The BPU's portion of the Dogwood investment included an acquisition adjustment of \$34.8 million. This amount is included in the Electric Production Plant. The BPU is amortizing the acquisition adjustment over 29.1 years. The amount amortized in 2024 and 2023 is \$1,201,133 and is included in the Electric Production Plant Adjustments in the 2024 and 2023 tables, respectively.

Notes to Financial Statements December 31, 2024 and 2023

Note 6: Long-Term Debt

The BPU's indebtedness as of December 31, 2024 consists of the following obligations:

	Beginning				Ending	Amount Due
	Balance		Additions	Reductions	Balance	in One Year
Revenue bonds:

2020A	3.00	17,010,000	09-01-2045	14,040,000	15,535,000
2020B	0.69-2.55	231,535,000	09-01-2037	201,445,000	218,725,000
Subtotal				510,390,000	538,950,000
Current maturities				(29,275,000)	(28,560,000)
Unamortized premium				31,843,370	33,623,570
Total utility system revenue		\$ 512,958,370 \$	544,013,570		

Interest on portions of the outstanding utility system revenue bonds is payable on a semiannual basis. As of December 31, 2024, and 2023, the BPU was in compliance with all required debt covenant ratios.

The debt service to maturity on the outstanding revenue bonds as of December 31, 2024 is as follows:

	_	Principal		Interest (including accreted)
Bond year(s) ending December 31:				
2025	\$	29,275,000	\$	18,713,426
2026		30,050,000		17,935,888
2027		30,910,000		17,073,155
2028		31,825,000		16,160,260
2029		32,810,000		15,176,263
2030–2034		156,805,000		60,764,578
2035–2039		95,415,000		36,695,976
2040–2044		87,135,000		17,319,250
2045–2046	_	16,165,000		995,800
	\$_	510,390,000	\$_	200,834,596

Notes to Financial Statements December 31, 2024 and 2023

The utility system revenue bond indebtedness requires special reserves and accounts as follows:

Account	Authorized Expenditure
Debt service and reserve	Paying current principal and interest on bonds
Construction	Acquiring, constructing and installing capital
	improvements
Improvement and emergency	Financing major renewals, repairs, and replacements,
	and extraordinary or unforeseen expenditures

The utility system revenue bond debt service and reserve account is held in escrow in a bank acting as trustee for the BPU. The utility system revenue bond indentures also provide for a bond reserve account to be held by the trustee for the future payments of principal and interest in the event that the net revenues of the utility system are less than or equal to 130% of the maximum annual debt service on the bonds. All amounts are reported on the accompanying statements of net position as restricted assets.

The current indentures also require the BPU to establish utility rates and collect fees sufficient to pay the operating, maintenance, and debt service costs of the utilities; to maintain the accounts listed above; and to provide net operating income, before depreciation and payment-in-lieu of taxes, of at least 120% of the maximum annual debt service due on the outstanding bonds. All of the BPU's utility plant facilities are pledged under the terms of the indentures.

Total indebtedness also includes government loans, which represent the amounts borrowed from Kansas Department of Health and Environment for the purpose of Water capital improvements to be repaid in installments over 31 years ending 2054. Governmental loans also include a \$4.56 million loan with the Unified Government of Wyandotte County and Kansas City, Kansas, for improvements to the radio tower system as well as a loan with the Unified Government in 2020 for the Leavenworth Road Improvements Project of \$1.455 million.

Notes to Financial Statements December 31, 2024 and 2023

The debt service to maturity on the outstanding government loans as of December 31, 2024 is as follows:

	_	Principal		Interest (including accreted)
Bond year(s) ending December 31:				
2025	\$	3,271,155	\$	562,778
2026		2,647,001		414,857
2027		2,403,330		353,708
2028		2,145,755		354,886
2029		2,005,943		357,355
2030–2034		8,957,771		1,213,467
2035–2039		3,763,693		555,487
2040–2044		2,123,947		364,345
2045–2049		2,797,594		223,445
2050–2054	_	2,466,294		71,612
	\$ _	32,582,483	\$_	4,471,940

In August 2021, the BPU entered into a Kansas Public Water Supply loan fund agreement, for which the amount is not to exceed \$25.0 million. In August 2022, the loan was amended and increased to \$39.5 million. The projects to be funded by this loan consist of construction of ground water storage at Argentine Pump Station, construction of a water transmission main from 90th and Parallel to I-435 and France Family drive, electrical improvements at the Nearman Water Treatment Plant, Parallel Pump Station and Milan Pump Station, and replacement of deteriorated water lines throughout the distribution system. As of December 31, 2024, the BPU has drawn down \$14.9 million of the loan.

The BPU has pledged specific revenue streams to secure the repayment of certain outstanding debt issuances. The corresponding debt issuances are for utility system revenue bonds and the purpose of the debt is for utility improvements. The following table lists those revenues, the amount and term of pledge remaining, the current year principal and interest on the debt, the amount of pledged revenue recognized during the current fiscal year, and the approximate percentage of the revenue stream that has been committed:

Type revenue pledged	Amount of pledge	Term of commitment	Percentage of revenue pledged	Principal and interest for the year ended 2024	Pledged revenue recognized for the year ended 2024
Electric and water operating revenue	\$ 711,224,596	Through 2046	12.7%	\$ 47,982,218	\$ 57,578,662

Notes to Financial Statements December 31, 2024 and 2023

Note 7: Regulatory Assets and Regulatory Deferred Inflows

The BPU is subject to the provisions of GASB Codification Section Re10, *Regulated Operations*, and has recorded assets and deferred inflows on its statements of net position resulting from the effects of the rate-making process, which would not be recorded under U.S. generally accepted accounting principles for nonregulated entities. Regulatory assets represent costs incurred that have been deferred because future recovery in customer rates is probable. Deferred inflows generally represent probable future reductions in revenue or refunds to customers. Management regularly assesses whether regulatory assets and deferred inflows are probable of future recovery or refund. If recovery or refund of regulatory assets or deferred inflows is not approved by the BPU Board of Directors, which is authorized to approve rates charged to customers or is no longer deemed probable, these regulatory assets or deferred inflows are recognized in the current period results of operations. Additionally, these factors could result in an impairment of utility plant assets if the cost of the assets could not be expected to be recovered in customer rates. Regulatory assets and deferred inflows as of December 31, 2024 and 2023 are as follows:

	Amortization Ending		2024		2023	_
Regulatory assets: Recovery of Quindaro Power Station Units	2040	\$_	55,170,852	_\$_	58,848,909	=
Deferred inflows: Recovery fuel purchased power	2025	\$_	9,658,617	_\$_	4,087,528	_

. .

A regulatory asset has been approved by the Board of Directors to recover through rates the costs related to the Quindaro Power Station units closing. The remaining net book value was recorded as a regulatory asset in 2020. The remaining costs of these assets will be accelerated and amortized over a 20-year period.

The BPU has an energy adjustment rate rider (ERC). Estimated retail tariffs are set to recover estimated fuel costs such as coal, natural gas, and purchased power. The ERC allows differences between these estimates and actual fuel and purchased power costs to be deferred as a regulatory asset or a deferred inflow depending on the nature of the variance between estimated and actual costs incurred.

Notes to Financial Statements December 31, 2024 and 2023

Note 8: Payment-in-Lieu of Taxes (PILOT) and Community Contributions

The BPU is exempt from federal and state income taxes and local property taxes because it is an administrative agency of the Unified Government. However, the BPU is required by a Charter Ordinance to pay a percentage of gross operating revenues to the Unified Government. The Charter Ordinance established a range of 5.0% - 12.0%. The payment-in-lieu of tax was established at 11.9% in 2024 and 2023, which amounted to \$38,502,792 and \$38,197,843, respectively. The PILOT is billed and collected by the BPU by a supplemental rate rider.

In addition to these payments to the Unified Government, the BPU also contributes services to the Unified Government, such as electricity, water, street lighting, fire hydrant services, traffic signals, billing and collection of the Unified Government sewer, storm water and trash fees at no charge. These service contributions amounted to \$13,783,856 and \$12,206,849 or 4.13% and 3.68% of total operating revenue, for 2024 and 2023, respectively. Expenses associated with these service contributions are recorded in the relevant operating expense caption on the statements of revenues, expenses and changes in net position.

Note 9: Commitments and Contingencies

Power Purchase and Sales Agreements

On December 21, 2006, the BPU entered into a Renewable Energy Purchase Agreement with TradeWind Energy to receive 25% of the energy output of Phase 1 of the Smoky Hills Wind Farm. This contract is a 20-year fixed price contract for 25% of the output of 100.8 MW of turbines as well as the Renewable Energy Credits associated with the output. The wind farm, which was built approximately 25 miles west of Salina, Kansas in Lincoln and Ellsworth Counties, began commercial operation in January 2008. Total power purchased under this agreement was \$2,845,533 and \$3,208,389 in 2024 and 2023, respectively.

On November 3, 2010, the BPU entered into an agreement with Lawrence, Kansas based Bowersock Mills and Power Company to purchase 7 MW of hydroelectric power over the next 25 years, providing additional renewable energy resources to the BPU's existing power generating mix. Total power purchased under this agreement was \$2,437,290 and \$2,155,603 in 2024 and 2023, respectively.

In December 2013, the BPU completed negotiations with OwnEnergy Inc., a developer of mid-sized wind projects, for the purchase of 25 megawatts of energy generated by wind turbines. The wind farm is located south of Alexander, Kansas in Rush County. Construction began in December 2013, and ties into the Southwest Power Pool (SPP) Midwest Energy transmission system. The contract between the BPU and OwnEnergy Inc. is a 20-year renewable energy Purchase Power Agreement (PPA). The wind farm was completed in 2015 with commercial production beginning in December 2015. Total power purchased under this agreement was \$2,909,819 and \$2,949,393 in 2024 and 2023, respectively.

Notes to Financial Statements December 31, 2024 and 2023

The BPU has contracts with the Southwestern Power Administration ("SPA") entitling the BPU to annually purchase 38.6 MW of hydroelectric peaking capacity. These contracts provide the BPU with hydro allocations until July 1, 2035. The BPU counts the full SPA capacity as a firm supply resource, reducing the need for additional capacity purchases and delaying the need for additional firm generation or other firm purchase power agreements. The energy available from this capacity is equal to 1,200 hours per MW of capacity per year, the scheduling of such energy being at the BPU's discretion (with certain minimum and maximum monthly and seasonal limitations). Total power purchased under this agreement was \$2,834,525 and \$2,834,615 in 2024 and 2023, respectively. The BPU also has an allotment of 5 MW of hydroelectric power from the Western Area Power Administration ("WAPA") until September 30, 2024. Total power purchased under this agreement was \$545,290 and \$346,005 in 2024 and 2023, respectively.

In January 2016, the BPU completed negotiations with TradeWind Energy Inc., a renewable energy developer, for the purchase of 200 megawatts of energy generated by wind turbines. Construction began on the wind farm in 2016 with commercial operations beginning in April of 2017. The facility is located just south of Minneola, Kansas and ties into the Southwest Power Pool (SPP) in the Sunflower Energy transmission system. The contract between the BPU and the Cimarron Bend Wind Project, LLC. is a 20-year renewable energy Purchase Power Agreement (PPA). Total power purchased under this agreement was \$16,617,931 and \$16,226,486 in 2024 and 2023, respectively.

In November 2016, the BPU finalized an agreement with MC Power, a solar developer, for the purchase of a 1 megawatt alternating current solar photovoltaic facility to be located at the Kansas City Board of Public Utilities Nearman Creek Power facility in Kansas City, Kansas. The contract between the BPU and MCP-KCBPU, LLC is a 25-year renewable energy Purchase Power Agreement (PPA) with commercial operations beginning in September of 2017. The project is intended to serve as a community solar project whereas the BPU customers can license panels within the project to reduce their overall monthly electric expenses, while supporting greener initiatives. Total power purchased under this agreement was \$151,014 and \$146,347 in 2024 and 2023, respectively.

The BPU has determined these purchase contracts to be excluded from the scope of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, as these are normal purchase contracts.

Coal Contracts

The BPU purchases coal for Nearman generating stations through contracts with Western Fuels Association (WFA) and affiliates. WFA, in turn, contracts with coal producers and railroads to meet its coal supply and delivery commitments to the BPU. The BPU is required to pay all costs incurred by WFA in acquiring and delivering the coal as well as a management fee.

Coal delivery to Nearman is contracted between WFA and Union Pacific Railroad which is effective until December 31, 2024. The delivery cost is established from a base price and is adjusted by indices set out in the contract.

Notes to Financial Statements December 31, 2024 and 2023

The Union Pacific Railroad contract requires a minimum shipment of 400,000 tons resulting in an approximately \$14,000,000 minimum annual coal purchase. The coal purchase contract is an all requirements contract and maintains the same pricing for any additional coal required.

The BPU purchased approximately 340,685 and 607,819 tons of coal for approximately \$11,822,000 and \$21,211,000 for the Nearman Station in 2024 and 2023, respectively.

The BPU has determined these coal contracts to be excluded from the scope of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, as these are normal purchase contracts.

Retirement Plan

Plan Description

The Retirement Pension Plan for the Board of Public Utilities of Kansas City, Kansas (the "Plan") is a contributory, single-employer defined benefit pension plan administered by the Board of Pension Trustees of the Retirement Pension Plan of the Board of Public Utilities of Kansas City, Kansas ("the Board") of Pension Trustees.

The Plan is governed by Kansas State statutes, which provide for the establishment of a Board of Pension Trustees and provides authorization for the Plan to take control and custody of all assets, property and funds presently held, controlled and in the possession of the Plan's Board of Pension Trustees. The Plan was established and may be amended only by the Board of Pension Trustees. The Board of Pension Trustees is represented equally by three management seats, appointed by the General Manager, and three non-management seats elected by the BPU members. The Plan membership includes all persons employed by the BPU on a regular, permanent basis.

Separate, stand-alone financial statements of the Plan can be obtained from the Pension Administrator, in care of the Human Resources Department of the BPU, 540 Minnesota Avenue, Kansas City, KS 66101.

Notes to Financial Statements December 31, 2024 and 2023

Benefits Provided

The primary benefits provided by the Plan are retirement benefits. However, the Plan also provides ancillary benefits in the event of pre-retirement death, disability, or termination of employment prior to meeting the eligibility requirements to retire. An employee of the BPU is eligible for coverage at the time of employment as a regular, permanent BPU employee. An employee remains a Member of the Plan as long as they continue employment with the BPU. Vesting is achieved upon the completion of five years of service. For Tier 1 members, retirement is at age 55, regardless of service. Benefits are calculated using the compensation for the three highest years of service within the last 10 years of service, multiplied by the total years of service and the formula factor of 1.80%, plus final average salary multiplied by the total years of service. For Tier 2 members, retirement is at age 65, with five years of service or age 60, with 30 years of service. Benefits are calculated using the compensation for the member's entire career, multiplied by the formula factor of 1.50%. Benefits vest after five years of service.

Cost of Living Adjustment (COLA)

The COLA is an automatic, simple 3% for members who retired before January 1, 1993. The COLA is not automatic, but discretionary for members who retired on or after January 1, 1993. The COLA can vary from 0% to 3% of the previous year's pension as determined by the Pension Board every year. If, on the first January 1 following benefit commencement, benefits have been received for less than a full calendar year, the increase is a fraction of the determined increase equal to the ratio of number of monthly benefit payments received divided by 12.

Employees Covered by Benefit Terms

The data required regarding the membership of the Plan was furnished by the Pension Administrator of the Plan. The following table summarizes the membership of the Plan as of December 31, 2023 and 2022, the respective measurement dates.

	2023	2022
Inactive Members or Beneficiaries Currently Receiving Benefits Disabled Members	818 9	810 10
Inactive Members Entitled To But Not Yet Receiving Benefits Active Members	29 481	27 483
Total	1,337	1,330

Contributions

Benefit and contribution provisions are established by and may only be amended by the Pension Board of Trustees. Contribution rates are determined annually by the Pension Board of Trustees. The BPU contributes a fixed contribution rate, equal to that of the members, currently 8.50% of pensionable earnings as of December 31, 2024 and 2023.

Notes to Financial Statements December 31, 2024 and 2023

For the years ended December 31, 2024 and 2023, BPU contributed \$5,189,710 and \$4,676,426, respectively, to the Plan.

Net Pension Liability/Asset

The total pension liability used to calculate the net pension liability/(asset) was determined by actuarial valuations as of January 1, 2023 and 2022 and rolled forward to the respective measurement dates as applicable. As of December 31, 2024, the Plan reported a net pension liability of \$8,398,649. As of December 31, 2023, the Plan reported a net pension liability of \$20,356,349.

Actuarial Assumptions

The total pension liability/asset based on the January 1, 2023 and 2022 actuarial valuations was determined using the following key actuarial assumptions for 2023 and 2022 and other inputs:

	January 1, 2023 Valuation	January 1, 2022 Valuation
Price inflation	2.35 percent	2.35 percent
Salary inflation	3.1 - 6.1 percent	3.1 - 6.1 percent
Long-term rate of return, net of investment		
expenses; and including inflation rate assumption	6.75 percent	6.75 percent

January 1, 2023 Valuation

Cost of living adjustment: Retired before January 1, 1993: 3.0% in all years. Retired on/after January 1, 1993: 0.00% through 2031, and 3.0% for 2032 and later.

Mortality: Pre-retirement mortality rates were based on the Pub-2010 General Employees Median Mortality Table with generational mortality projections using Scale MP-2021. Post-retirement mortality rates for healthy retirees were based on the Pub-2010 General Retirees Median Mortality Table with generational mortality projections using Scale MP-2021.

The actuarial assumptions used in the 2023 valuation are based on the results of an assumption review completed in 2024.

January 1, 2022 Valuation

Cost of living adjustment: Retired before January 1, 1993: 3.0% in all years. Retired on/after January 1, 1993: 0.00% through 2032, and 3.0% for 2033 and later.

Mortality: Pre-retirement mortality rates were based on the Pub-2010 General Employees Median Mortality Table with generational mortality projections using Scale MP-2020. Post-retirement mortality rates were based on the Pub-2010 General Retirees Median Mortality Table with generational mortality projections using Scale MP-2020.

Notes to Financial Statements December 31, 2024 and 2023

The actuarial assumptions used in the 2022 valuation are based on the results of an assumption review completed in 2021.

The long-term expected rate of return on pension plan investments is reviewed as part of the regular experience study prepared for the Plan. The results of the most recent experience study were presented in 2024. Several factors are considered in evaluating the long-term rate or return assumption, including long-term historical data, estimates inherent in current market data, and an analysis in which best-estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation), along with estimates of variability and correlations for each asset class, were developed by the Plan's investment consultant. These ranges were combined to develop the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by some investment consultants are often intended for use over a 10-year investment horizon and are not always useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The investment consultant for the Board of Public Utilities, at the time the Experience Study was completed, provided capital market assumptions for a 50-year period and those were used as part of the analysis. The long-term rate of return assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class used for the 2024 assumption review, as provided by the Plan's investment consultant at that time, Asset Consulting Group, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	
Domestic Large Cap Equity	17.5 %	7.2 %	6
Domestic Small Cap Equity	17.5	8.6	
International Developed Equity	20.0	8.3	
Long/Short Equity	5.0	5.6	
Core Plus Bonds	26.0	2.9	
Core Real Estate	7.0	6.5	
Opportunistic Added Real Estate	7.0	8.0	
	100.0 %	⁄o	

Notes to Financial Statements December 31, 2024 and 2023

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2023 was 6.75%. The discount rate used to measure the total pension liability at December 31, 2022 was 6.75%. The projection of cash flows used to determine the discount rate assumed the plan contributions from members and the BPU will be made at the current contribution rates as determined annually by the Pension Board in effect on the measurement date:

- i. Employee contribution rate: 8.5% of annual compensation
- ii. The BPU contribution rate: Same as member contributions (8.5% of annual compensation)
- iii. Administrative expenses for the current and future years were assumed to be 1% of the current member's proportionate share of covered payroll.

Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments of 6.75% was applied to all periods of projected benefit payments to determine the total pension liability, within the January 1, 2023 valuation.

Notes to Financial Statements December 31, 2024 and 2023

Changes in the Net Pension (Asset) Liability

Changes in the total pension liability, plan fiduciary net position and the net pension liability (asset) are:

	Increases (Decreases)					
	Total	Plan	Net Pension			
	Pension	Fiduciary	Liability			
	Liability	Net Position	(Asset)			
	(a)	(b)	(a) - (b)			
Balances at January 1, 2024	\$ 524,328,573	\$ 503,972,224	\$ 20,356,349			
Changes for the year:						
Service cost	7,114,743	_	7,114,743			
Interest on total pension liability	34,229,652	-	34,229,652			
Difference between expected and

Employee contributions	-	4,533,603	(4,533,603)			
Net investment income	-	(97,471,031)	97,471,031			
Benefit payments, including						
member refunds	(34,802,331)	(34,802,331)	-			
Administrative expenses		(571,138)	571,138			
Net changes	(80,153,054)	(123,777,294)	43,624,240			
Balances at December 31, 2023	\$ 524,328,573	\$ 503,972,224	\$ 20,356,349			

Within the January 1, 2023 valuation, the following changes were applied to the actuarial assumption and method:

• The assumed COLA for post January 1, 1993 retirees was changed from 0% through 2032 and 3% thereafter to 0% through 2031 and 3% thereafter, TPL purposes only.

The following changes were reflected in the January 1, 2023 valuation for GASB purposes but are first reflected in the January 1, 2024 funding valuation:

- The mortality improvement scale was updated to scale MP-2021.
- Retirement rates were adjusted to better reflect actual experience.
- Termination rates were adjusted to better reflect actual experience.
- The merit salary increase assumption was increased for members with more than five years of service.
- The administrative expense assumption was increased from 0.7% to 1.00% of pay.

Notes to Financial Statements December 31, 2024 and 2023

Within the January 1, 2022 valuation, the following changes were applied to the actuarial assumption and method:

• The assumed COLA for post January 1, 1993 retirees for the current Measurement Date is 0% through 2032 and 3% thereafter rather than the assumption of 1.9% for 2022, 2.5% for 2023 and 3%, for TPL purposes only.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability (asset) of the Plan, calculated using a discount rate of 6.75%, as well as the Plan's net pension liability (asset) calculated using a discount rate that is 1-percentage point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate.

		2024	
		Current	
	1% Decrease (5.75%)	Discount Rate (6.75%)	1% Increase (7.75%)
Net pension liability (asset)	\$73,598,243	\$8,398,649	(\$45,967,267)

The following presents the net pension liability (asset) of the Plan, calculated using a discount rate of 6.75%, as well as the Plan's net pension liability (asset) calculated using a discount rate that is 1-percentage point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate.

		2023	
		Current	
	1% Decrease	Discount	1% Increase
	(5.75%)	Rate (6.75%)	(7.75%)
Net pension liability (asset)	\$82,034,538	\$20,356,349	(\$30,998,689)

Notes to Financial Statements December 31, 2024 and 2023

Pension Expense

For the fiscal years ended December 31, 2024 and 2023, the BPU recognized pension expense of (\$4,917,890) and \$7,643,275, respectively. Annual pension expense consists of service cost, interest and administrative expenses on pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as a deferred outflow/inflow of resources recognized in pension expense over a five-year period.

Deferred Outflows/Inflows of Resources related to Pensions

In accordance with GASB Statement Nos. 67 and 68, the BPU recognizes differences between actual and expected experience with regard to economic or demographic factors, changes of assumptions about future economic or demographic factors, the difference between actual and expected investment returns, changes in proportion, and contributions subsequent to the measurement date as deferred outflow/inflows of resources.

As of December 31, 2024, the BPU reported deferred outflows and inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected			
and actual experience	\$	87,362	\$ 1,333,064
Changes of assumptions		12,933,222	44,418,346
Net difference between projected and actual earnings on pension plan investments		48,381,689	_
Contributions subsequent to the measurement date	_	5,189,710	
Total	\$_	66,591,983	\$ 45,751,410

Notes to Financial Statements December 31, 2024 and 2023

As of December 31, 2023, the BPU reported deferred outflows and inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources
Differences between expected	_			
and actual experience	\$	135,101	\$	3,858,004
Changes of assumptions		18,243,222		68,690,666
Net difference between projected and actual earnings on pension plan investments		72,184,595		_
Contributions subsequent to the measurement date		4,676,426	_	
Total	\$_	95,239,344	\$	72,548,670

The amount reported as deferred outflows of resources as of December 31, 2024, resulting from contributions subsequent to the measurement date of \$5,189,710, will reduce the net pension liability for the year ending December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expenses as follows:

Year Ended December 31:

2025 2026 2027 2028	\$ (8,170,430) 1,228,720 25,747,237 (3,154,664)
	\$ 15,650,863

Other Postemployment Benefits

Plan Description

The BPU provides certain postemployment health care and life insurance benefits to eligible retirees and their dependents in accordance with provisions established by the BPU's Board of Directors. The plan is a single-employer defined-benefit healthcare plan administered by the BPU. The BPU currently determines the eligibility, benefits provided, and changes to those provisions applicable to eligible retirees. The OPEB plan does not issue separate financial statements. Employees are given a 90-day window to retire with medical coverage at ages 55 and above with seven consecutive years of service.

Notes to Financial Statements December 31, 2024 and 2023

Benefits Policy

The post retirement benefit plan is a comprehensive major medical plan with a \$100 deductible per individual or \$200 per family. For individuals, the plan pays 80% of the next \$12,500 of allowable charges and 100% thereafter for the remainder of that calendar year. For families, the plan pays 80% of the next \$25,000 of allowable charges and 100% thereafter for the remainder of that calendar year. The plan has a lifetime benefit maximum of \$750,000. Benefits cease at the first of the month that the retired employee attains age 65 or death. Spouse benefits end at the first of the month that the retired employee attains age 65, the end of the month of the retiree's death, or on the date of the spouse's death. Retirees are not required to contribute toward the cost of the postretirement benefits.

Funding Policy

The contribution requirements of plan members and the BPU are established and can be amended by the BPU's Board. The required contribution is based on a pay-as-you-go financing requirement. For the years ended December 31, 2024 and 2023, the BPU paid \$2,488,227 and \$2,212,671, respectively, for retirees medical. GASB Statement 75 does not require funding of the OPEB liability, and the BPU has chosen not to fund it. The BPU funds on a cash basis as benefits are paid. No assets have been segregated and restricted to provide for postretirement benefits nor are any assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. A schedule of funding progress is included as required supplementary information.

Employees Covered by Benefit Terms

As of January 1, 2024 (the actuarial valuation date), the OPEB plan membership consisted of the following:

Number of Participants
Retirees (with medical coverage)
Retiree Spouses (with medical coverage)
Total

106
88
174

Total OPEB Liability

2024

The total OPEB liability of \$26,579,927 at December 31, 2024 was measured as of December 31, 2023, and was determined by an actuarial valuation as of January 1, 2024.

The total OPEB liability in the January 1, 2024 actuarial valuation was determined using the following actuarial assumptions:

Discount rate: 4.12% per annum based on the S&P Municipal Bond 20 Year

High Grade Rate Index

Salary increases: 2.50% per annum

Notes to Financial Statements December 31, 2024 and 2023

Healthcare cost trend rate: Medical: 7.00% graded uniformly to 4.50% over 10 years.

Mortality rates were based on the Pub-2010 Amount Weighted Mortality Table base rates projected generationally with scale MP-2021.

The actuarial cost method was Entry Age Normal Level Percent of Salary.

2023

The total OPEB liability of \$27,140,938 at December 31, 2023 was measured as of December 31, 2023, and was determined by an actuarial valuation as of January 1, 2024.

The total OPEB liability in the January 1, 2024 actuarial valuation was determined using the following actuarial assumptions:

Discount rate: 4.12% per annum based on the S&P Municipal Bond 20 Year

High Grade Rate Index

Salary increases: 2.50% per annum

Healthcare cost trend rate: Medical: 7.00% graded uniformly to 4.50% over 10 years.

Mortality rates were based on the Pub-2010 Amount Weighted Mortality Table base rates projected generationally with scale MP-2021.

The actuarial cost method was Entry Age Normal Level Percent of Salary.

Changes in Total OPEB Liability

	2024	2023
Balance at January 1	\$ 27,140,938	\$ 43,584,221
Service costs	826,226	2,671,292
Interest costs	1,100,990	1,020,372
Plan Change	-	(7,066,895)
Experience losses	-	571,001
Changes of assumptions	-	(11,426,382)
Benefits payments	(2,488,227)	(2,212,671)
Net change	 (561,011)	(16,443,283)
Balance at December 31	\$ 26,579,927	\$ 27,140,938

Notes to Financial Statements December 31, 2024 and 2023

Sensitivity of Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following represents the total OPEB liability for 2024 and 2023, calculated using the stated health care cost trend assumption, as well as what the OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage-point lower or 1 percentage-point higher than the assumed trend rate:

	Healthcare Cost Trend Rates 2024				
	 1% Decrease 6% decreasing to 3.5% over 10 years		Current 7% decreasing to 4.5% over 10 years		1% Increase 8% decreasing to 5.5% over 10 years
Total OPEB Liability - 2024	\$ 24,222,139	\$	26,579,927	\$	29,281,717
	Health	car	e Cost Trend R	ate	es 2023
	1% Decrease		Current		1% Increase
	 6% decreasing to 3.5% over 10 years		7% decreasing to 4.5% over 10 years		8% decreasing to 5.5% over 10 years
Total OPEB Liability - 2023	\$ 24,974,655		\$ 27,140,938		\$ 29,617,706

Sensitivity of Total OPEB Liability to Changes in the Discount Rate

The following represents the total OEPB liability for 2024 and 2023, calculated using the stated discount rate, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower or 1 percentage-point higher than the current rate:

	Discount Rate 2024				
	1% Decrease (3.12%)		Current (4.12%)		1% Increase (5.12%)
Total OPEB Liability-2024	\$ 28,351,477	\$	26,579,927	\$	24,920,705
	Di	sco	unt Rate 202	3	
	1% Decrease (3.12%)		Current (4.12%)		1% Increase (5.12%)
Total OPEB Liability-2023	\$ 28,959,540	\$	27,140,938	\$	25,442,625

Notes to Financial Statements December 31, 2024 and 2023

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The BPU recognized OPEB expense of (\$2,149,032) and (\$7,451,479) in 2024 and 2023, respectively.

The BPU recognized deferred inflows of resources related to OPEB of \$12,142,436 and \$16,303,908 in 2024 and 2023, respectively. The BPU recognized deferred outflows of resources related to OPEB of \$400,553 and \$485,777 in 2024 and 2023, respectively. See below for the sources as of December 31, 2024:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 400,553	\$ 12,142,436
Total	\$ 400,553	\$ 12,142,436

The amounts reported as deferred inflows of resources related to OPEB will be recognized in expense as follows:

Year Ended December 31:	
2025	\$ (3,653,473)
2026	(3,230,706)
2027	(2,103,353)
2028	(1,620,206)
2029	 (1,134,145)
	\$ (11,741,883)

Risk Management

The BPU is exposed to various risks of loss related to tort claims; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The BPU is self-insured for workers' compensation, healthcare, certain general liability claims and a portion of the automobile and small vehicle fleet.

The BPU is responsible for the first \$750,000 of a workers' compensation claim per employee/per occurrence and workers' compensation claims greater than \$750,000 and up to \$35,000,000 per employee/per occurrence are fully insured. At December 31, 2024 and 2023, an asset of \$1,100,000 is within current assets-cash and cash equivalents and a liability of approximately \$809,000 and \$2,203,000 as of December 31, 2024 and 2023 is within current liabilities-workers' compensation reserve in the statements of net position. Claims for worker's compensation in 2024 and 2023 were \$830,000 and \$511,000, respectively.

Notes to Financial Statements December 31, 2024 and 2023

At December 31, 2024 and 2023, an asset of \$1,000,000 is within current assets-cash and cash equivalents and a liability of approximately \$1,339,000 and \$693,000 as of December 31, 2024 and 2023 is within current liabilities-public liability in the statements of net position. Public liability and healthcare claims paid were approximately \$16,965,000 and \$16,176,000 as of December 31, 2024 and 2023, respectively.

The BPU is essentially 100% self-insured for healthcare claims and is responsible for the first \$500,000 of general liability and automobile insurance claims. In addition, any general liability or automobile claims greater than \$35,000,000 are the responsibility of the BPU. Settlements did not exceed insurance coverage for the past three years. At December 31, 2024 and 2023, the BPU has established a liability of approximately \$2,148,000 and \$2,897,000, respectively, for workers' compensation, public liability and healthcare reserves which is based on estimates of the amounts needed to pay prior and current year claims. The liability is based on the requirement that a liability for claims incurred prior to the statement of net position date be recorded if information related to such claims is available prior to the issuance of the financial statements and the amount of loss can be reasonably estimated. The total amount of claims and judgments is expected to become due within one year.

Changes in the workers' compensation, public liability, and healthcare reserves for 2024, 2023 and 2022 are as follows:

	_	2024	2023	2022
Beginning accruals	\$	2,897,000	\$ 2,481,000	\$ 2,193,000
Additional accruals		17,046,000	17,103,000	12,515,000
Charges for claim payments		(17,795,000)	(16,687,000)	(12,227,000)
Ending accruals	\$	2,148,000	\$ 2,897,000	\$ 2,481,000

Environmental Compliance

The BPU is subject to substantial regulation of air emissions and control equipment, as well as water, waste, remediation and disposal issues related to operation of its electric generating utilities under federal, state and local environmental laws and regulations. In the last 15 years, federal, state and local agencies have continued to issue regulations applicable to electric generating utilities. The BPU participates in the rulemaking process, including providing comments on rules to assist the agency in identifying areas for improvement and challenging rules, if necessary. The BPU also continues to review and evaluate regulations and implement changes to its processes, if necessary, to maintain compliance.

Notes to Financial Statements December 31, 2024 and 2023

Other Legal Matters

In the normal course of business, the BPU is subject to various lawsuits, actions, proceedings, claims and other matters asserted under laws and regulations. Management believes the amounts provided in the financial statements, as prescribed by U.S. generally accepted accounting principles, are adequate in light of the probable and estimable contingencies. However, there can be no assurances that the actual amounts required to satisfy alleged liabilities from various legal proceedings, claims and other matters, and to comply with applicable laws and regulations, will not exceed the amounts reflected in the BPU's financial statements. As such, costs, if any, that may be incurred in excess of those amounts provided as of December 31, 2024 and 2023 cannot be reasonably determined.

Note 10: Principal Customers

Electric and water charges to the BPU's six largest retail customers expressed as a percentage of total operating revenues for the years ended December 31, 2024 and 2023 were as follows:

	2024	2023
Principal retail customers:		
General Motors Corporation	3.8%	3.7%
Certainteed Corp	3.7%	3.7%
Johnson County WaterDistrict # 1	2.7%	2.9%
Griffin Wheel Co	2.3%	2.3%
Univ of KS Hosp Auth	2.2%	2.3%
Owens Corning Sales, LLC	2.2%	2.2%
Total principal retail customers	16.9%	17.1%

Note 11: Disclosures About Fair Value of Assets and Liabilities

The BPU categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The BPU has the following recurring fair value measurements:

• Federal agency securities of \$16,078,019 and \$16,074,039 as of December 31, 2024 and 2023, respectively, are valued using quoted prices for similar assets, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets (Level 2 inputs).

Notes to Financial Statements December 31, 2024 and 2023

• Money market funds of \$4,086,923 and \$4,106,022 as of December 31, 2024 and 2023, respectively, are valued using quoted market prices (Level 1 inputs)

Note 12: Leases

The BPU leases, as a lessor, various tower and pole attachment space to various telecommunication companies, the terms at which expires through 2031. During the years ended December 31, 2024 and 2023, the BPU recognized revenue of approximately \$1,948,000 and \$1,207,000 under the agreements, respectively.

Required Supplementary Information Schedule of Changes in Net Pension Liability and Related Ratios Fiscal Years Ended December 31, (Unaudited)

Changes of actuarial assumptions and methods:

- In 2024, the assumed COLA for post January 1, 1993 retirees was changed from 0% through 2032 and 3% thereafter to 0% through 2031 and 3% thereafter, for TPL purposes only.
- In 2024, the mortality improvement scale was updated to scale MP-2021.
- In 2024, the retirement and termination rates were adjusted to better reflect actual experience.
- In 2024, the merit salary increase assumption was increased for members with more than five years of service.
- In 2024, the administrative expense assumption was increased from 0.7% of pay to 1% of pay.
- In 2023, the assumed COLA for post January 1, 1993 retirees was changed from 1.9% for 2022, 2.5% for 2023, and 3% thereafter to 0% through 2032 and 3% thereafter, for TPL purposes only.
- In 2022, the assumed COLA for post January 1, 1993 retirees was changed from 1% through 2022 and 3% thereafter to 1.9% for 2022, 2.5% for 2023, and 3% thereafter, for TPL purposes only.
- In 2021, the assumed COLA for post January 1, 1993 retirees was changed from 1% through 2020 and 3% thereafter to 1% through 2022 and 3% thereafter, for TPL purposes only.
- In 2021, the inflation assumption was decreased from 2.60 to 2.35%.
- In 2021, the investment return assumption was decreased from 7.5% to 6.75%.
- In 2021, the general wage growth assumption was decreased from 3.35% to 3.10%.
- In 2021, the covered payroll growth assumption was decreased from 3.25% to 3.00%
- In 2021, the interest crediting rate assumption for contribution account balances was decreased from 3.5% to 3.35%.

Required Supplementary Information Schedule of Changes in Net Pension Liability and Related Ratios Fiscal Years Ended December 31, (Unaudited)

- In 2021, the mortality assumption was changed to the Pub-2010 General Median Mortality Tables with future mortality improvements modeled using Scale MP-2020.
- In 2021, the individual salary increase assumption was modified to reflect the lower general wage increase assumption of 3.10%. In addition, the merit salary increase assumption as changed to a service-based table.
- In 2021, the asset smoothing method was modified to use a closed 5-year smoothing period instead of a closed 8-year period. The corridor was eliminated.
- In 2020, the assumed COLA for post January 1, 1993 retirees was changed from 1% through 2022 and 3% thereafter to 1% through 2020 and 3% thereafter, for TPL purposes only.
- In 2019, the inflation assumption was decreased from 3.10% to 2.60%.
- In 2019, the investment return assumption was decreased from 8.0% to 7.5%.
- In 2019, the general wage growth assumption was decreased from 4.0% to 3.35%.
- In 2019, the covered payroll growth assumption was decreased from 4.0% to 3.25%.
- In 2019, the interest crediting rate assumption for contribution account balances was decreased from 4.0% to 3.5%.
- In 2019, the mortality assumption was changed to the RP-2014 Blue Collar Mortality Table with future mortality improvements modeled using Scale MP-2017.
- In 2019, retirement rates were adjusted to better reflect actual experience.
- In 2019, termination rates were changed from age-based, sex-distinct assumption to a service-based, unisex assumption.

Required Supplementary Information Schedule of Changes in Net Pension Liability and Related Ratios Fiscal Years Ended December 31, (Unaudited)

- In 2019, the individual salary increase assumption was modified to reflect the lower general wage increase assumption of 3.35%. In addition, the merit salary increase assumption was adjusted to reflect higher salary increases at younger ages.
- In 2019, the administration expense assumption was increased from 0.60% of pay to 0.70% of pay.
- In 2019, the amortization method for the unfunded actuarial liability (UAL) was changed to a "layered" amortization approach. The UAL as of January 1, 2019 will continue to be amortized according to the current schedule. New amortization bases will be created on each subsequent valuation date equal to the difference between the actual and expected UAL, with payments calculated using a closed 20-year period as a level-percent of payroll. A new amortization base will also be created when actuarial assumptions are changed or the benefit structure is modified. An appropriate period will be determined by the Board for these events, after discussion with the actuary.
- In 2018, the assumed COLA for post January 1, 1993 retirees was changed from 1% through 2022 and 3% thereafter to 1% through 2021 and 3% thereafter, for TPL purposes only.
- In 2017, the assumed COLA for post January 1, 1993 retirees was changed from 1% through 2025 and 3% thereafter to 1% through 2022 and 3% thereafter for TPL purposes only.
- In 2016, the assumed COLA for post January 1, 1993 retirees was changed from 1% through 2020 and 3% thereafter to 1% through 2025 and 3% thereafter for TPL purposes only.

Notes to Required Supplementary Information for Contributions

The following actuarial methods and assumptions were used to determine the actuarially determined contribution reported in the most recent actuarial valuation (January 1, 2024):

Actuarial cost method Entry age normal cost

Amortization method Level percent of payroll, closed

Remaining amortization period Layered bases ranging from 15-20 years remaining.

New bases are amortized over a closed 20-year period.

Asset valuation method 5-year smoothed market

Inflation 2.35%

Salary increases 3.10 to 6.10%

Investment rate of return 6.75% Cost-of-living adjustments 3.00%

Changes of benefits and funding tiers: In 2010, The Pension Board Trustees adopted a new plan design for members hired on or after January 1,

2010. The new plan is a career average defined benefit plan. The Pension Board Trustees increased the member contribution rate from 5.50% to 8.50%. This also increased the BPU's matching contribution rate.

Notes to Schedule:

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75 to pay related benefits.

Changes of benefit terms: There were no changes of benefit terms in 2024.

Changes of benefit assumptions: There were no changes of benefit assumptions in 2024.

Required Supplementary Information Schedule of Changes in Total OPEB Liability and Related Ratios Fiscal Years Ended December 31, (Unaudited)

Changes of plan provisions, actuarial assumptions and actuarial methods: There were no changes of plan provisions, actuarial assumptions and actuarial methods in 2024.

Changes of plan provisions, actuarial assumptions and actuarial methods in 2023:

- The discount rate increased from 2.26% from 4.12%.
- Retiree medical eligibility was updated for Tier II participants. Tier II participants are now eligible for retiree medical benefits if they retire after reaching age 60 with 20 years of service. Previously all participants were eligible for retiree medical benefits if they retired after reaching age 55 with 7 years if service.
- The medical trend was updated to 7.00% graded uniformly to 4.50% over 10 years.

Changes of plan provisions, actuarial assumptions and actuarial methods: There were no changes of plan provisions, actuarial assumptions and actuarial methods in 2022.

Changes of plan provisions, actuarial assumptions and actuarial methods in 2021:

- The discount rate decreased to 2.26% from 3.10%.
- The mortality improvement rates were updated to the PUB-2010 Amount Weighted Mortality Table base rates with scale MP-2021.
- The medical trend was updated to 7.50% graded uniformly to 4.50% over 13 years.

Changes of plan provisions, actuarial assumptions and actuarial methods in 2019:

- The discount rate increased to 3.10% from 3.03%.
- The mortality improvement rates were updated to use MP2019, compared to MP2017.

Required Supplementary Information Schedule of Changes in Total OPEB Liability and Related Ratios Fiscal Years Ended December 31, (Unaudited)

- The medical trend was updated to follow the Getzen model after a three-year transition period starting at 7.25% and decreasing uniformly to 6.50%.
- The medical aging factors were updated to adjust for age and gender and are assumed to follow the Yamamoto aging assumptions.

This schedule is intended to show information for 10 years. Additional years will be included as they become available. This information is presented as of the measurement date, which is the same as each of the years presented above.

Independent Auditor's Report

The Board of Directors Board of Public Utilities Kansas City, Kansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Board of Public Utilities of Kansas City, Kansas (the BPU), which comprise the BPU's statement of net position as of December 31, 2024, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 18, 2025, which contained an "Emphasis of Matter" paragraph regarding presentation of only the BPU financial statements.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the BPU's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the BPU's internal control. Accordingly, we do not express an opinion on the effectiveness of the BPU's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the BPU's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Forvis Mazars, LLP

Kansas City, Missouri June 18, 2025

Statistical Section (Unaudited)

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the utility's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the utility's financial performance and well-being have changed over time.	84
Revenue Capacity These schedules contain information to help the reader assess the utility's most significant local revenue source.	87
Debt Capacity These schedules present information to help the reader assess the affordability of the utility's current levels of outstanding debt and the utility's ability to issue additional debt in the future.	90
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand how the information in the utility's financial activities takes place.	94
Operating Information These schedules contain service and infrastructure data to help the readers understand how the information in the utility's financial report relates to the services the utility provides and the activities it performs.	100

Footnote A

Per Question 95 of "Guide to Implementation of GASB Statement 34 on Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments" (Implementation Guide), restricted Net Position should be reported when constraints placed on net asset use are either:

- a. Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments.
- b. Imposed by law through constitutional provisions or enabling legislation.

The basic concept is that restrictions are not unilaterally established by the reporting government itself, and cannot be removed without the consent of those imposing the restrictions or through formal due process.

Footnote E

Per the Implementation Guide, if there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds should not be included in the "calculation of net investment in capital assets. The unspent portion of the debt would be included in the calculation of Net Position restricted for capital projects.

NOTE: The most restrictive bond ordinance provides for historical net revenue coverage at 120 percent of the Maximum Outstanding Annual Debt Service.

- (1) Total operating revenues, interest on investments, other interest and income (excluding Construction Fund) and other.
- (2) Total operating expenses exclusive of depreciation and amortization.
- (3) The maximum outstanding annual debt service and debt service includes the payments required for the government loans.
- (4) Current Year Net Revenue Available for Debt Service divided by Maximum Outstanding Annual Debt Service
- (5) Population and personal income data can be found in the Deomographic Schedule.

NOTES:

- Generated amounts include BPU's owned generating assets less system usage.
- BPU's portion of Dogwood's generation is included in the generated amounts.
- Purchase power agreements (PPA) represent renewable energy generated outside BPU's service territory and sold directly through the Southwest Power Pool.
- Total load is the amount of power supplied to BPU's retail and borderline customers.
